

Name : **Vaishnavi Bharat Gangurde**

Roll No : **25**

Division : **A (SE-Comp)**

Problem Statement :

Write a c++ program using switch control structure which takes day number and prints its day : Eg.If you input '1' o/p will be 'Monday', if input is '2' o/p will be 'Tuesday'.

Source Code:

```
/* Program Statement : Write a c++ program using switch control
                        structure which takes day number and prints
                        its day : Eg.If you input '1' o/p will be
                        'Monday', if input is '2' o/p will be 'Tuesday'.
*/

#include <iostream>
using namespace std;

int main()
{
    int ch;
    cout << "Enter the day number for knowing actual day of that
            number : "<<endl;
    cin >> ch;

    switch (ch)
    {
        case 1:
            cout << "Monday" << endl;
            break;

        case 2:
            cout << "Tuesday" << endl;
            break;
    }
}
```

```

case 3:
    cout << "Wednesday" << endl;
    break;

case 4:
    cout << "Thursday" << endl;
    break;

case 5:
    cout << "Friday" << endl;
    break;

case 6:
    cout << "Saturday" << endl;
    break;

case 7:
    cout << "Sunday" << endl;
    break;

default:
    cout << "You entered invalid number, Please enter the number f
rom 1 to 7" << endl;
    break;
} // End of switch

return 0;
} // End of main fun

/*
OUTPUT :
Enter the day number for knowing actual day of that number :
1
Monday
*/

```
