

## OUTPUT :

```
OUTPUT :
Enter the first complex number :
Enter the real part :
4
Enter the imaginary part :
5
Enter the second complex number :
Enter the real part :
6
Enter the imaginary part :
7

-----
4+5i
6+7i

-----
The Addition of the complex number is :10+12i

-----
The multiplication of the complex number is :-11+58i

-----
```
